

The
McQueen Lake
Environmental Education Centre

In cooperation with The Kamloops North Rotary Club

Needs your support

For our 15th Annual

Dinner & Auction Fundraiser

Saturday, December 5th, 2009, in the NorKam Cafeteria

Your donation is important to us.

It also provides you with an opportunity to advertise your goods or services to the Kamloops community at our well attended auction and fundraising dinner.

The McQueen Lake Center relies on the donations of businesses like yours to continue to offer unique Environmental Education programs to children in the Kamloops/Thompson School District.

The Center, located at McQueen Lake, was initially established with the help of the Kamloops Rotary Club. Today, close to 6000 students, parents and teachers use the site yearly. The setting is a natural classroom for outdoor studies. It consists of 320 hectares of forest, meadows, grasslands, aquatic areas and the facilities to support both residential and day programs.

Proceeds from this event will be put towards maintenance, rebuilding, and solar panels. Last year over \$14,000 was raised!

Businesses donating items for our live and silent auctions, to be held December 6th, 2008, will be issued a tax receipt for the value of the donation. As a donor, you will be eligible for a framed McQueen Lake print, which will be drawn on the evening of the event. Donors will also be recognized for their contributions by announcements throughout the evening, donor signs, other publications and local media.

Don't miss this exciting opportunity to promote your business while supporting your local Environmental Education Center!
